Yes ST-12 internal technical discussion are continuing. Loren is taking over coordinating that for me as I am fully engaged in this emergency response. I did get some comments on the model though that I can share with you; I have not had time to review them myself

Mon., April 17 is OK for BCT call. Mon., May 1 thru Fri., May 6 not good. I will be attending daytime Phoenix Goodyear Airport Superfund (NPL) onsite remediation progress technical group meetings and after business hour Citizen Advisory Group public meetings. I have not heard any developments/resolutions to the April 28 govt. funding bill deadline, so I do not know if anyone will have budget/funding issues for the 1st week of May, or if carrying over govt. funding is resolved and no longer a factor.

Thank you for the updates on your schedules. Sorry there is an emergency on your other project, Carolyn.

I was going to propose a non ST012 BCT call (all other topics) next Monday, April 17 since Wayne will be out the 18th through the May 1. Would anytime on Monday work for you Carolyn? I think the call would be less than one hour.

Are the EPA / ADEQ ST012 discussions still ongoing? Do you know when we can expect any additional comments on the EBR work plan? Responses to ADEQ evaluation comments were issued yesterday. Could we have an ST012 BCT call the first week in May?

AmecFW has a conflict with our proposed onsite BCT meeting date of May 16th (that week is bad) and I have a conflict the week of May 22. I could meet the week of May 30 or June 5th.

Please let me know if a non ST012 call would work on Monday, April 17th, if an ST012 call would work the first week of May, and your preference for timing of our next onsite meeting. Thanks.

Cathy
